

# AURORA

## Unique and adventurous design

Do you want a real eye-catcher at your resort, hotel or holiday park? Then the Aurora is your glamping lodge! This luxury lodge stands out due to its original design, two spacious bedrooms with en-suite bathrooms and shared living space complete with a kitchenette. The spacious - largely covered - veranda creates a unique outdoor experience.

The Aurora is an impressive glamping accommodation for guests who seek a remarkable escape in nature. This canvas lodge is one of our most stylish accommodations for four people. Perfect for families and friends who want to enjoy the outdoors together in luxury.

We have created a sophisticated and luxurious interior line to construct a magnificent look and feel and even more comfort in collaboration with our interior stylist. Utilise the space surrounding the luxury glamping lodge by installing a sauna, private swimming pool or barbecue area and place a sun lounge on the veranda, so your guests can unwind to their hearts' content.

The sturdy wooden pole construction is attached to the galvanised steel chassis, to which the wooden floor is connected. Alternatively, you can opt for a hardwood floor.

The Aurora can withstand severe weather conditions, including wind gusts of 135 km/h, measured for 3 seconds at the height of 10 metres.

This high-end safari lodge was designed by our partner Ray Design.

- ✓ The adventurous design adds a unique touch to your resort
- ✓ Spacious outdoor living area, designed for comfort during warm seasons
- ✓ Large sliding walls that draw guests closer to nature than ever before
- ✓ Two spacious bedrooms with en-suite bathrooms

# SPECIFICATIONS AURORA

Elements	Colour	Specifications	Technical standards
Ferrari PVC	Taupe and Sand	<p>Serge Ferrari- Flexlight Lodge 6002 is a highly resistant membrane: waterproof, fireproof fabric with a grainy texture and a matt finish for a natural, cotton-like effect.</p> <p>Its PVDF varnish makes outdoor stains (tree sap, dead leaves, etc.) easy to clean. Ideal for the roofs and walls of eco-friendly bungalows and lodges, this phthalate-free fabric is Greenguard certified for indoor air quality and 100% recyclable.</p>	<p>Ferrari PVC 630 gr/m<sup>2</sup> meets the following standards:</p> <p>Weight 630 gr/m<sup>2</sup> - EN ISO 2286-2</p> <p>Width 260 cm</p> <p>Standard format length 50 lm</p> <p>Tensile strength (warp/weft): - 250/250 daN/ 5cm (EN ISO 1421)</p> <p>Tear strength (warp/weft): - 20/20 daN (DIN 53.363)</p> <p>Flame retardancy:</p> <p>M2/NFP 92-507 B1/DIN 4102-1 CAN/ ULC-S109 METHOD 2/NFPA 701 VKF 5.3/SN 198898 Classe 2/UNI 9177 BS 7837 1530.3/ AS/NZS G1/GOST 30244-94 Class A/ASTM E84 M2/UNE 23 727-90 CSFM T19 • CPAI 84</p>
Polycotton	Beige	<p>A unique mix of four fibres which makes the canvas roofs and sidewalls from the fibre flame retardant, breathable and moisture regulating.</p> <p>The fibres in the tent canvas provides extra safety and protection. The fabric is resistant to scorching, annealing and sparks. Textile material which is flame-retardant has an inhibiting effect on the origin of fire and therefore delays the spread of fire.</p>	<p>Polycotton meets the following standards:</p> <p>PPAN-fr/CV/PVA-fr/PVA</p> <p>Weight 420gr/m<sup>2</sup></p> <p>Watercolumn: 400mm</p> <p>DIN 4102 Class B2</p> <p>BS 7837 – NFP 92-503 M2</p> <p>Finish: water, mildew and dirt repellent</p>
Frame material		A combination of steel and wood	<p>Steel: EN1993</p> <p>Wood: EN1995/ FSC Certified</p>
Floor frame		Galvanised steel chassis	EN1993
Floor top		Standard Norwegian Pinus Sylvestris/Kebony	FSC Certified/EN 350
